

Risesun mgl Russia

What is risesun MGL?

RiseSun MGL is a high-tech enterprise focused in research and industrialization of new energy vehicle Li-ion power battery, energy storage Li-ion battery and key materials of Li-ion battery. MGL takes the lead in the world in scale up manufacture and marketization of Mn-based Li-ion battery.

Why is risesun MGL a champion product?

This honor not only demonstrates Risesun MGL's excellent strength in the manufacturing field, but also highlights the globally leading technological level and market competitiveness of Risesun MGL's commercial vehicle hybrid power battery system as a champion product in the sub-sector.

Is risesun MGL set240s safe?

RiseSun MGL stated in 2023 on the SET240S: "The battery box has been verified by heavy-duty mining trucks under actual road conditions, and the product is safe and reliable. With the three-engine system, the maximum power of the vehicle can reach 2,091 kW, which is 12% higher than similar products on the market.

Why should you choose Rongsheng mengguli?

It also highlights that Rongsheng Mengguli's commercial vehicle hybrid power battery system, as a champion product in the sub-sector, boasts globally leading technological level and market competitiveness. MGL is one of the earliest enterprises in China engaged in the research, development, and production of power batteries.

What makes MGL a leader in the manufacturing industry?

It is the top honor in the manufacturing industry pyramid, and its single champion products represent the highest level of development and the strongest market strength in the sub-sectors of global manufacturing. MGL has been deeply involved in the field of power batteries for more than two decades.
