

Russia powerpack company

Will a Korean company build a battery plant in Russia?

It is the first time for a Korean company to build a battery plant in Russia. It will supply batteries to Russian state-owned automakers. EnerTech International has decided to build a battery plant from the beginning of this year and has been reviewing production plans with Russian customers.

Will Enertech build a battery manufacturing plant in Russia?

Enertech International plans to construct a cylindrical battery manufacturing plant in Russia. After operating the plant commercially in 2025, it plans to construct a 10GWh battery manufacturing plant by 2030. This is the first time that a South Korean company is constructing a battery manufacturing plant in Russia.

Does Enertech have a Russian subsidiary?

Enertech announced on Tuesday that it plans to establish a Russian subsidiary called 'Enertech Russia (tentative name)' sometime during the first half as part of its plan to construct a battery manufacturing plant in Russia. The company plans to accelerate its electric vehicle battery business by constructing its first manufacturing plant overseas.

How much power will Russia's electric vehicle battery plant produce?

The plant is expected to have an annual production capacity of 2GWh initially and 10GWh by 2030. 10GWh will allow the company to make 160,000 60kWh electric vehicle batteries annually. The Russia plant is expected to have equipment for manufacturing cylindrical batteries.

Where is Russia's battery cell factory located?

Russia's nuclear corporation Rosatom announces the location for its battery cell factory announced in March. It will be built in the western Russian exclave of Kaliningrad and is to produce battery cells for electric vehicles and energy storage systems from 2026.

Will Russia build a lithium battery factory in 2025?

Russian nuclear energy giant Rosatom has acquired a 49% stake in Enertech International, a South Korean lithium-ion battery specialist, and has announced plans to build a gigafactory at an unspecified location in Russia. The start of production is scheduled for 2025.
