Who is allpowers International Limited?

ALLPOWERS INDUSTRIAL INTERNATIONAL LIMITED is a solar energy technology company integrating R&D and production. Our headquarter is located in Guangzhou, China. Since its establishment, the company has been committed to research and development of portable solar energy related products.

What does allpowers do?

Allpowers is a company committed to delivering clean energy and enabling solutions to critical energy shortages around the world. We will strive to provide clean energy, realize safe and secure optimal energy solutions, and meet the diverse needs of offices, commercial facilities, factories and homes in urban development.

What are the product categories of allpowers?

The current main product categories include portable solar panel phone chargers, solar laptop chargers, portable solar semi-flexible solar panel, and solar energy storage systems. ALLPOWERS is mainly oriented to Western Europe, North America, East Asia, Eastern Europe, Middle East and other markets in more than 30 countries and regions.

What are the different types of electrical networks in Slovenia?

Electrical networks are classified in terms of their voltage: low-voltage, medium-voltage and high-voltage networks. The ELES Company manages the latter, the high-voltage transmission network in Slovenia. In Slovenia, the most common shapes of pylons are "fir tree", "barrel", "the Danube", "Y-pylon" and the "H-pylon".

Find company research, competitor information, contact details & financial data for ALLPOWER GROUP S.A. of Ciudad de Buenos Aires. Get the latest business insights from Dun & Bradstreet.

ELES is Slovenia's combined transmission and distribution system operator. ELES is responsible for 669 km of transmission lines in the 400 kV transmission network, 328 km of transmission lines in the 220 kV transmission network, and 1,862 km of transmission lines in the 110 kV transmission network.
