

Solar business franchise Palestine

Should you own a solar business franchise?

Another benefit of owning a solar business franchise is quick return on investment. As you know, projects which offer renewable, and environmentally-friendly energy are always supported by government incentives and solar tax credits. For more information browse through our list of solar energy franchise opportunities on the page.

How did solar power work in Gaza?

We renovated 20 desalination plants that provided 15,000 Liters/day across the Gaza strip by deploying solar systems to power them. We installed tens of solar systems to support nebulizers and electric mattresses, in homes with disabled individuals. We installed solar street lights in communities serving more than 7000 people.

How can Qudra help bridge the energy gap in Palestine?

By expanding solar access, Qudra is helping bridge this energy gap, enabling communities to thrive and industries to grow. Operating in Palestine presents unique challenges, particularly in securing financing and dealing with the political complexities that often disrupt the region's economic stability.
