

Solar container research assistant college

What is a solar recruitment drive?

This recruitment drive aims to attract talented, passionate researchers eager to contribute to pioneering solar energy research and support the development of a sustainable and high-tech solar industry in the Netherlands.

What is the solarNL program?

The SolarNL program capitalizes on the extensive knowledge that the Netherlands has to develop a new generation of solar cells and panels that will build a national solar industry and accelerates the energy transition. The new solar products are made using fully circular production processes that generate limited CO2 emissions.

What is SolarLab's Research focusing on?

"Our research is focused on the design of new solar cells, advanced solar energy materials, and innovative integration methods," explained Prof. dr. Monica Morales-Masis, a principal investigator at SolarLab.

How many PhD positions are available at SolarLab?

SolarLab, a key component of the National Growth Fund program SolarNL in which the University of Amsterdam is one of the partners, has announced the opening of 41 PhD positions across the country.

Is a research assistant a part-time job?

Area of research: Student assistants Part-Time Suitability: The position is suitable for part-time employment. Job description: The human gut microbiome Applications are invited from suitably qualified candidates for two full time, fixed term positions as a research assistant/assistant psychologist...

The following ACLE research assistants (RA's) work under the ASF granted project entitled " An NLP analysis of institutional investor's stance towards environmental sustainability " .

Contact Us: Solar Energy Research Institute (SERI), Level G, Research Complex, The National University of Malaysia, 43600 Bangi, Selangor, ...

Post-Doc Research Associate University of North Carolina at Chapel Hill | Chapel Hill, North Carolina | United States | about 12 hours ago . Position Summary This postdoc position will be conducting ...

Home The University of Minnesota's Solar Energy Laboratory specializes in fundamental science and applied research in the areas of solar fuels, thermal storage, solar heating, and advanced heat ...

SolarLab research focusses on three key topics: Solar cell design, Solar energy materials and integration of solar cells. Within these topics over 50 solar energy ...
