As worsening power cuts push businesses to use solar energy, import and foreign currency restrictions and corruption in the customs department slow down growth in the off-grid sector, while the regime awards on-grid solar projects to their families and cronies.

Starting a Solar Panel import business in Myanmar requires adherence to many rules and regulations. The most crucial step is obtaining an Import Export Code (IEC) from the Directorate General of Foreign Trade (DGFT). Businesses must also comply with the Government of Myanmar's Foreign Trade Policy (FTP), which governs product imports.

In addition to exempting BEVs from SGT and CT, the UTL 2023 exempts certain goods related to solar modules and panels from CT. The MOPF also announced customs tariff exemptions for these same goods. The exempted goods include many types of photovoltaic panels, controllers, inverters, battery boxes, and other
