

Solar panel storage battery Lebanon

The battery can store the extra energy produced from solar panels during the day to avoid using electricity at a more expensive rate. The peak time-of-use (TOU) rates can be double the price compared to off-peak rates. In such a scenario, a solar battery storage system can come in handy for using electricity without having to pay such a high price.

Our range includes solar panels, inverters, Batteries, charge controllers, and complete solar energy systems.
