

Solar plus battery system Mayotte

Inaugurée en novembre 2022, celle-ci redistribue en heures creuses l'électricité, majoritairement issue du solaire, qui est captée lors des pics de production. Elle doit permettre au gestionnaire Energie de Mayotte de réaliser des missions annuelles de ...

In Mayotte, Albioma operates a photovoltaic fleet with an installed capacity of 15,3 MW. All power plants are sited in locations free from conflicts of use, including the one above Mamoudzou market, which features 725 KW of solar panels, making it the Group's most powerful rooftop plant.

Albioma's battery storage will provide an energy arbitration service for the grid operator and load balancing between peak and low consumption times. It will also allow for greater penetration of renewable and solar power in particular into the Mayotte network.

Already a strong fleet of five regenerators, Battery Plus Indian Ocean has entrusted the development of battery regeneration activity in the territory of Mayotte. The three new partners have acquired a sixth regenerators, already established in the territory, bringing to seven the total number of regenerators in this island area.

Learn how to maximize PV production and capture additional revenue for your new or existing utility scale solar energy project with an integrated energy storage system.

Its lithium-ion battery energy storage system of 3.5 MWh will provide discharge capacity for three hours. The power will be injected into the grid during peak demand periods. The project was awarded in a French government tender ...

The Albioma-Mayotte Battery Energy Storage System is being developed by Albioma. The key applications of the project are renewable energy integration, electric energy time shift and grid support services.
