I am building my first solar power setup. We are a large group of people buying together 400W panels, at a great price BUT as we all know, the panels are the top of the iceberg. I have found a 48V battery 12KW I would like to use as bank.

Meet the Plug-In Solar Kit: Put ultralight panel in sun, plug in to an outlet, and join the solar revolution. ? Sold out for \$499 > Free shipping included

SunBox, from Big Dutchman, will significantly increase the profitability of your PV system. Instead of feeding solar power generated during the day into the public grid for a small reimbursement, with SunBox you can use it yourself when it's cloudy or, specifically, during load peaks.

Plug n play solar has been around for a while, but has never taken off (probably because behind-the-meter power is still sketchy and poorly understood). The potential for plug n play solar is huge -- it could mean cheap, zero-configuration solar energy spreading to consumers at the pace of the smartphone, the car or air-conditioning.

Sunbox Energy is designed to meet your power needs today, with the flexibility to adapt as your needs change. If you're looking for a reliable solar energy system made to fit your existing and future needs, Sunbox is the

Sunbox solar power kit Denmark

right and only solar choice.

Harness the power of the sun to reduce your energy bills and become more eco-friendly! Sunbox Pros uses photovoltaic (PV) panels that convert sunlight directly into electricity.
