Is the Caribbean a good place for solar energy?

The Caribbean is blessed with vast and readily predictable solar resources. Yet almost all countries within the region depend on fossil fuels for more than half of their energy needs. The cost of energy in the Caribbean is amongst the highest in the world, while in some cases reliability is amidst the worst.

How does the sun provide energy?

The sun provides energy in two forms - light and heat. The sun can be used to heat water and air in our homes and businesses (If you've seen a house with big shiny panels on the roof, that family is using solar power.). It can also be used as an energy source to produce electricity.

The solar farm is historic for Saint Lucia as it will be the first utility-scale renewable energy project on the island, where diesel-powered generators currently account for over 99% of electricity generation.
