

# Sunfer energy Cayman Islands

Affordable Solar Cayman Ltd. offers solar power consulting and systems installations in Cayman Islands. We provide services to commercial and residential projects, including CORE program and off-grid solar systems, and solar heating solutions ...

SUNFER is a Spanish company with more than 20 years of experience and a team of more than 150 people dedicated exclusively to the design, calculation and manufacture of photovoltaic structures. We have a 30,000 m<sup>2</sup> facility located in Valencia, where we integrate all the processes. Sunfer products are present in more than 30 countries.

According to the country's national energy policy, the target is for the Cayman Islands to be generating 70% of its power from renewables, mostly solar, by 2037, but only around 3% of the power consumed here is currently generated from solar.

We are celebrating the 25th anniversary of Sunfer Energy. After starting out in 1999, we didn't know the road ahead. Now, two and a half decades later, we look back with pride as we continue to look forward to new challenges in the future ...

CUC says utility-scale solar energy will significantly lower the fuel charge for customers in Cayman, delivering power at a cost of 10 cents per kilowatt hour or less, compared to 19 cents per...
