Will Sembcorp build Europe's largest battery energy storage system?

Sembcorp Energy UK is planning on building what it claims will be Europe's largest battery energy storage system (BESS) as its site at Wilton International on Teesside, in north-east England.

Why should you choose Sembcorp?

As one of Asia's largest battery operators, Sembcorp's expertise in energy storage systems is well-positioned to support the transition to cleaner and more sustainable energy systems. Our in-house expertise allows us to build complex projects globally. In Singapore, we operate Southeast Asia's largest energy storage system.

Does Sembcorp have a battery storage site?

An existing Sembcorp battery storage site. Sembcorp Energy UK is a subsidiary of Singapore's Sembcorp Group, which entered the UK energy market in 2003. Image: Sembcorp.

Will Sembcorp be able to decarbonise the UK energy system?

When completed in 2020, the entire fleet will further boost Sembcorp's ability to provide the flexible distributed energy generation needed to decarbonise the UK system. Developed in partnership with Fluence, the leading global provider of energy storage technology and services, the units are able to supply power in a matter of milliseconds.

How many MW does Sembcorp Energy UK have?

These additions bring Sembcorp Energy UK's total operational energy portfolio to 973 MW. These sites comprise half of a 120 MW portfolio of battery storage projects--one of the largest transacted fleets of its kind in Europe.

What does Sembcorp Industries UK & Middle East CEO Andy Koss say?

Sembcorp Industries UK and Middle East CEO Andy Koss said: "With a growing reliance on renewables, the UK energy system needs to be flexible and able to respond quickly to changes. How well do you really know your competitors? Access the most comprehensive Company Profiles on the market, powered by GlobalData.
