

# Tonga 1 megawatt solar farm cost

What's going on with Tonga Power's 1 mega watt solar array?

Tonga Power, Meridian, the European Investment Bank and the governments of both New Zealand and Tonga are working together to develop a 1 Mega Watt (MW) AC photovoltaic (PV), solar array at the Tonga Power generation site in Popua, Tongatapu.

How much does a 1 MW solar power plant cost in India?

The total cost for a 1 MW solar power plant in India, for example, typically ranges between INR4.5 crore to INR6 crore. This cost can vary based on the type of technology used, the location of the plant, and other project-specific factors. A 1 MW solar power plant can produce around 1.5 million to 1.7 million units (kWh) of electricity per year.

How much does a 1MW solar power plant cost?

For those pondering this shift, understanding the financial dynamics is essential. A 1MW solar power plant typically requires an investment between \$1 million to \$3 million, a figure that dances to the tune of various influencing factors. With the stage set, let's dissect this cost, offering you a granular insight into each expenditure aspect.

How much land is needed for a 1 MW solar power plant?

Typically, 4 to 5 acres of land are required for a 1 MW solar power plant, depending on the type of solar panels and layout. 2. What is the cost of setting up a 1 MW solar power plant?

How much does the Popua solar farm project cost?

The Popua Solar Farm project is expected to cost approximately \$US 6.5m (excluding Tonga Power costs to secure land), with funding provided by the New Zealand Aid Programme, European Investment Bank and Meridian Energy.

How much electricity does a 1 MW solar power plant produce?

A 1 MW solar power plant can produce around 1.5 million to 1.7 million units (kWh) of electricity per year. The revenue generated depends on the power purchase agreement (PPA) signed with the grid or other consumers. Typically, electricity is sold at rates ranging from INR3.5 to INR6 per unit, depending on the region and the agreement.

Tonga's first Solar Farm, built at a cost of TOP \$12 million, is expected to be in full operation by August, said John van Brink, the General Manager of the Tonga Power Ltd.

The project was built at a cost of \$4.4 million and is the largest Independent Power Producer investment in Tonga. The facility is selling power to the local utility Tonga Power Ltd. at 0.33...
