

Troes corp Bermuda

Who is Troes Corporation?

Founded TROES Corporation with the mission to innovate in the energy storage industry. Launched the first prototype of our Battery Energy Storage System (BESS). Selected as one of the top "5 high growth potential companies" by Canada's largest hardware focused incubator-VentureLAB.

What can Troes do for You?

Reach out to TROES for inquiries,partnerships,and support with our innovative energy storage solutions. TROES Corp. is a technology firm serving renewable and microgrid battery energy storage solutions within the commercial,industrial and institutional field. announcements,educational content and more!

How did Troes expand its global footprint?

TROES successfully expanded its global footprint by selling projects to 7 countries. TROES stands for "The Revolution of Energy Storage". TROES Corp. is a Canadian- and Woman-owned technology firm serving renewable and microgrid-based battery energy storage solutions within the commercial,industrial,and microgrid markets.

What is a Troes system?

TROES offers a seamless integration of hardware and software elements to provide a one-stop energy storage solutionfor mid-sized microgrids. TROES offers proprietary three-layers of controls for system safety and has had zero safety related incident in its history.

Is Troes a good investment?

Wined the 2023 Mind to Market Award by Ontario Centre of Innovation. Named as One Of Canada's Most Investable Cleantech Ventures by Foresight 50. TROES successfully expanded its global footprint by selling projects to 7 countries. TROES stands for "The Revolution of Energy Storage".

Who invested in Troes?

MobilityFund,Ontario Centre of Innovation,SAIC Capital,EcoCanada,and OVINare 5 of 27 investors who have invested in TROES. Who are TROES's competitors? Fluence,BYD Energy,Energport,and Hitachi are competitors of TROES. Discover how our experts ensure you're getting the most accurate financial data in the industry.

TROES Corp. Modular Battery Energy Storage Systems. Using proprietary technologies, TROES sets itself apart from other energy storage providers by enabling mid-size projects with safe, cost-effective and adaptable one-stop battery energy storage products and solutions. Visit Website

TROES will supply BESS to the smart energy microgrid, which will be a hybrid, independent energy system that will demonstrate a new approach to efficient clean energy development and operation in Canada"s North.

Troes corp Bermuda

The company's systems offer smart distributed energy storage technology to tackle the challenges faced by commercial and industrial clients when using traditional energy grids and ...

TROES primarily focuses on commercial, industrial, institutional, and microgrid segments with stationary applications with major benefits: bill reduction, self-supply, backup, decrease capital expenditure, power grid congestion alleviation, peak shifting, voltage adjustment, etc.

TROES (troy-ce) is a Canadian-based Advanced Battery Energy Storage Systems (BESS) manufacturer. We specialize in developing, designing and delivering smart, high performance, cloud-based energy storage systems that integrate our own proprietary technology.

The company's systems offer smart distributed energy storage technology to tackle the challenges faced by commercial and industrial clients when using traditional energy grids and empower them to lower energy costs, cut carbon footprint and increase energy reliability, enabling enterprises and consumers to enjoy backup power, transportable ...
