In January 2020, Infratec completed the commissioning of a 73.5kW rooftop solar panel-battery storage project on the Tuvalu Fisheries Department building in Funafuti. The NZ Ministry of Foreign Affairs and Trade funded project was the first to combine solar generation and battery storage on the island.

Target: Achieve 100% renewable electricity and increase energy efficiency by 30%, by 2020; Status: In progress; RES: Solar photovoltaics, and biogas from pig manure. Implementation: In 2009, the government of Tuvalu adopted the National Energy Policy (NEP) setting out its 100% target. The National Energy Policy includes a mechanism which is ...

The installation of Tuvalu's inaugural Floating Solar Photovoltaic (FSPV) system has been successfully completed, with this cutting-edge system seeing 184 solar panels positioned on Tafua Pond in Funafuti.

Infratec has installed 196 solar panels on the roof of the new Tuvalu Fisheries Department HQ on the main atoll of Funafuti, giving the building 73.5kW of its own renewable energy generation, plus 220kWh of battery storage.

The Tuvalu Solar Power Project Decreasing reliance on fuel and enhancing renewable energy-based electrification in the small island state of Tuvalu. E8 funded project. The E8 comprises of 10 leading electricity companies from the G8 countries promoting sustainable energy development through electricity sector projects and human capacity building ...

Design, Supply, Install, Test, Commission, Operate & Maintain Floating Solar PV Generation, Grid Infrastructure and other items in Kiribati and Tuvalu.

The installation of Tuvalu's inaugural 100.28kWp Floating Solar Photovoltaic System (FSPV) consists of a total of 184 x 545W Sunergy solar panels with a solar floating mounting system. Through this new FSPV system 174.2MWh of electricity will be generated each year, meeting two percent of Funafuti's annual energy demand.

In Funafuti, a small pond bordered by pig pens is now home to an innovative renewable energy pilot program, floating solar panels. Tuvalu Energy Corporation General Manager, Mafalu Lotolua says the project is a response to the struggle to find space to install solar panels on the atoll.

Tuvalu solar panels tzaneen

Renewable energy in Tuvalu is a growing sector of the country's energy supply. Tuvalu has committed to sourcing 100% of its electricity from renewable energy. This is considered possible because of the small size of the population of Tuvalu and its abundant solar energy resources due to its tropical location.

Decreasing reliance on fuel and enhancing renewable energy-based electrification in the small island state of Tuvalu. E8 funded project. The E8 comprises of 10 leading electricity companies from the G8 countries promoting sustainable energy development through electricity sector projects and human capacity building activities in developing ...
