

Uganda midsummer company

Who is Midsummer machinery?

Under the Midsummer Machinery brand, we supply production systems for flexible thin-film solar cells. Midsummer was founded in 2004 with the desire to transform the world's most climate-friendly energy source into usable energy for everyone.

Does Midsummer sell Sungrow inverters?

Midsummer has announced a new distribution partnership with inverter heavyweight Sungrow. Developers will now be able to buy Sungrow's energy storage systems from the UK distributor, with products for applications in a range of sizes available as well as the scalable SBR battery, commercial string inverters and residential hybrid inverters.

Who is Midsummer solar?

Midsummer is a Swedish solar energy company that installs discrete solar roofs that we manufacture in Järfälla with 90% lower carbon footprint than traditional solar panels. We have a high-tech, Swedish product and own the entire value chain from development and production to installation.

Why is Midsummer a sustainable company?

Midsummer's sustainability efforts are based on our desire to reduce the environmental impact of the production of solar roofs. A third-party-reviewed lifecycle analysis shows that Midsummer's solar roofs generate almost 90% lower carbon footprints than traditional solar panels thanks to our efficient production systems.

Does Midsummer have a solar PV system?

Midsummer, a wholesale distributor of renewable energy systems, has partnered with InstaGroup to enable it to launch its first fully connected solar PV system, InstaGen. Alongside panels, battery storage and inverters, InstaGen provides a user-friendly app. Consumers can use the technology to control their InstaGen system and energy usage.
