Will Morocco double green electricity production in Western Sahara?

(Bloomberg) -- Morocco, buoyed by recent foreign recognition of its rule over Western Sahara, plans to double green electricity production in the disputed territory to meet growing demand before it co-hosts the 2030 FIFA World Cup.

What is Western Sahara's green power capacity?

Western Sahara's current green power capacity is about 1.3 gigawatts, or about a quarter of the nation's total renewables capacity. A project to develop a 3-gigawatt cable linking renewable plants in the territory to central Morocco has attracted interest from private investors, said the official.

Who are winder power?

Did Enel remove 'Western Sahara' from its sustainability reports?

From 2017 to 2018, Enel removed all references to 'Western Sahara' from its sustainability reports. Spot the difference between the 2017 and 2018 sustainability report below.

Why is Sahara a key shareholder in some African refineries?

Sahara is a key shareholder in some African refineries, some of which include; Societe Ivoirienne de Raffinage (SIR), Societe Africaine de Raffinage (SAR) refinery to mention a few, facilitating the refining of its own crude oil in order to capture the full value of the product transformation.

Does Morocco have sovereignty over Western Sahara?

Morocco has no sovereignty over or international mandate to administer Western Sahara - as concluded by the International Court of Justice, and in recent years in four consecutive rulings by the Court of Justice of the European Union. 'We condemn Enel's decision to build these energy projects on occupied land.

Western Sahara winder power group

In late July, Morocco secured another diplomatic coup in a string of recent triumphs when France backed its territorial claims over Western Sahara. France joins a growing list of countries, including the United States, to champion the North African kingdom's plan for autonomy under Moroccan sovereignty. France's decision is, however, the source of much ...

Western Sahara [a] is a disputed territory in North-western Africa has a surface area of 272,000 square kilometres (105,000 sq mi). [3] Approximately 30% of the territory (82,500 km² (31,900 sq mi)) is controlled by the Sahrawi Arab Democratic Republic (SADR); the remaining 70% is occupied [4] [5] and administered by neighboring Morocco. [6] It is the most sparsely ...
