The company offers completely integrated towers and foundation designs that provide harmony in the hoisting process through rotor orientation methods to access wind turbines in the high sea, enabling clients to reduce the cost of power generation and also produce sustainable energy.

At 2-B Energy, we aim to have the members of our team inspired and integrated in the overall design process. Here thinking out of the box in combination with realistic view and completion are fundamental drivers among the colleagues. Therefore the 2-B team is a unique group where tradition is challenged and realization is a virtue.
